2021 Bible Study

Doctrinal Series

Biblical doctrines are the building blocks of the Christian life. Therefore, the study of these doctrines are key to understanding what God intends for all of mankind as those who were created in His image. The study of biblical doctrines can only be viewed according to the Word of God – which means it is “God-breathed” and does not get its definition or definitive benefits outside the original authentic authoritative purpose of God. We will approach our study with this firmly embedded in our hearts and heads. - PT
